Dear Friends,
Boiler Replacement Update

A few weeks ago, we invited our boiler maintenance team to assess our boiler and prepare it for another season. Although we typically schedule this service in October, we acted early this year, and it proved to be the right decision.

Our trusted partners from Neelands thoroughly inspected the boiler, cleaning out key components in hopes of extending its service life. Unfortunately, while the boiler did start, it was discovered to have a steam leak. As a result, they have advised us to use the boiler only in case of emergency.

We have already ordered a new, Canadian-made boiler, which is expected to arrive within three to four weeks. In the meantime, we are hoping for mild autumn weather and kindly ask everyone to pay attention to the weather forecast and dress accordingly, if the temperature drops.

The total cost of the project—including the removal and disposal of the old boiler, preparing the new site, installation, and connection of the new unit—will be \$60,000 and as we have already raised \$20,000, we are hoping to raise the balance over the next few months. If you have already contributed to the fund, we thank you and invite you to consider an additional gift. For those who have not yet supported this important initiative, we encourage you to do so. This is a once-in-a-lifetime purchase, and we cannot do without it and we can't do it without your support.

Blessings,

Your Wardens and Clergy
